ONE-YEAR MBA

The One-Year MBA is designed to provide engineers, scientists and technologists the business and leadership skills required to start and lead technology-centered organizations. After completing a rigorous business core, students have flexibility to customize their learning experience through a variety of professional electives. In addition, students will augment knowledge gained in the classroom through participation in active learning projects with leading and emerging technology organizations. The program includes leadership training, access to career services, and opportunities to participate in professional and social clubs.
