

## MASTER OF SCIENCE IN ACCOUNTING

The 10-month residential MS Accounting (MSA) program prepares you to take the CPA exam while enhancing your technical skills, improving your written and oral communication, and developing your critical thinking and leadership abilities. The 30-credit hour program provides you with the data analytics skills that accounting employers seek and prepares you for public, nonprofit, government or corporate accounting. Whether you plan to pursue a career in assurance, forensic accounting, or consulting, the flexibility of the MSA program allows you to choose your area of focus and complete 1-2 internships. Pair this with the built-in access to the Becker Fast Pass CPA prep course and you'll be well prepared to pass the CPA exam and launch your career.

*Best-Masters.com*

A lot of the classes are designed to help prepare us for the CPA exam. Other classes dive more into different accounting interest areas and you can pick and choose what matches best for you. I'm very impressed with the options available to us and the quality of my courses.
