MASTER OF SCIENCE IN ACCOUNTING

The 10-month residential MS Accounting (MSA) program prepares you to take the CPA exam while enhancing your technical skills, improving your written and oral communication, and developing your critical thinking and leadership abilities. The 30-credit hour program provides you with the data analytics skills that accounting employers seek and prepares you for public, nonprofit, government or corporate accounting. Whether you plan to pursue a career in assurance, forensic accounting, or consulting, the flexibility of the MSA program allows you to choose your area of focus and complete 1-2 internships. Pair this with the built-in access to the Becker Fast Pass CPA prep course and you’ll be well prepared to pass the CPA exam and launch your career.

- MSA student first-time CPA pass rate is 22% higher than undergraduate test takers.
- The first-time pass rate of the CPA Audit section jumps from 54% to 93% with an MSA.
- MSA students have access to the Becker Fast Pass CPA prep course and materials.
- Compared to those with only a bachelor’s degree, MSA graduates are poised to capitalize on accelerated promotion opportunities and an estimated $1.5 million increased lifetime earning potential, when combined with a CPA license.
- Flexible curriculum for students with two tracks: a CPA focus for public and corporate accounting and a CPA/CMA track designed for specialized corporate accounting.
- Customized plan of study which emphasizes advanced accounting electives, Excel skills, research opportunities, professional and ethical standards, communication, and leadership.
- Active alumni network around the world that includes distinguished alumni such as Beth Brooke, CPA and former Global Vice Chair at Ernst & Young (Forbes List of 100 Most Powerful Women).
A lot of the classes are designed to help prepare us for the CPA exam. Other classes dive more into different accounting interest areas and you can pick and choose what matches best for you. I'm very impressed with the options available to us and the quality of my courses.
