## ALUMNI SPOTLIGHT

“My biggest takeaways have to be the skills and the connections that I have made. On the skill side, I would say that although we have been taught the core concepts in class, getting to apply the concepts in and for real-life companies in competitive scenarios looks very different. Also, I got to work with a wide variety of people and interact and collaborate with them; two of our team members are undergraduates, and we got to work closely with our professors, faculty mentors, and industry mentors.
